PARIS, June 26,-Mme, Carnot returned to Paris from Lyons early this morning with the remains of the president coffined in plain oak. The civil and police authorities received her. About 7,000 persons, principally members of the working class

sent a feeling telegram in which deep sor-row spoke to deep sorrow.

Madame Carnot has piles of letters threatening her husband and sons, re-ceived before and after the executions of Valiant and Henri. Not long ago President Carnot, when walking in the Bois with Gen. Borious, chief of the military ousehold, was shadowed by a sinister looking fellow of whom he only 15h him-self by retreating to his carriage. He had been warned from Italy to keep well guarded. Other warnings came from Brussels to beware of the Grand Prix on June 17, tin December 800,000 frances were voted to increase the police force but M. Carnot was left practically unguarded.

THE PRESIDENT OFTEN WARNED. During five years the prefecture of points he years the prefecture of police was changed to secure his safety, and it did it well, appointing the sharpest detectives to watch over him. Under the pretense of economy this duty was shifted to the ministry of the interior, where, says the Echo de Paris, unmentionable intrigues were rife. The officials there were revoted to M. Constrans, between whom and M. Carnot there was a fend. Was the change made to worry M. Carnot into leaving the Elysee by arousing a sense of change made to worry M. Carnot into leaving the Elysen by arousing a sense of insecurity? Possibly. When M. Carnot was going to Touten to visit the Russian squadron, a warning was received from Scotland yard but no attention was paid to it. On June 20 the prefect of Herault telegraphed to the minister of the interior that a dangerous Italian Anarchist named Santo had arrived at Gette. This intimation was also ignored, with the Lyons tion was also ignored, with the Lyons tragedy for the consequence.

CANDIDATES ARE CHART.

emingly M. Carnot's fate tames the smbitton of those politicians who coveted the presidency. M. La Cour, speaker of the senate, refuses to run for the office. Prime Minister Dupny seemingly has the best chance, but is less keen than was M. Lasimir-Perier. Octogenarian Casimir-Perier. Octogenarian Aarago, the astronomer's son, is hardly placed, but because he is so old and tottering may get in. M. Brisson, who has been a canilidate twice already, has some chance to saimir-Perier would just now be perous because he is repugnant to the in-tustrial working classes. It is on the cards that a large number of Opportunists may unite with the Radicais and Socialists ou M. Brisson or M. Bourgeois. Bourgeois is an outsider, but so was Carnot in 1887; under different circumstances, however. A presidential election is in the nature of a vatican conclave and is the object of rudiess bargaining and intriguing. M. Casimir-Perier is the man for the wealthy bourgeoiste and aristocratic society. He wise in his own conceit, but the respensibilities involved in the presidency might cure this. In America he might pass for an old fushioned Wing.

The Obsequies Commission.

Panis, June 2s.-A commission appointed to direct the obsequies of the president includes Colonel Chamoin, who will represent M. Carnot's family; M. Houjon, director of the academy of fine arts; M. Huet, director of public works; Ambrose Thomas, M. Saint Saens, and Architects Garnier and Guilianme.

According to the Matin, Louise Michel. According to the Matin, Louise Michel, the neterious woman anarchist, says the execution of President Carnot was no more than a simple act of justice. In Cartot a whole class, the whole bourgeois world, has been struck at M. Carnot embodied the executable capitalistic republic. It was not merely Deibler's (the executioner) president, but also the Paus tioner) president, but also the Pana maists' president who has failen under Cesario's dagger. Anarchy will once

ENGLAND'S SORROW.

LONDON, June 26 — In the house of com-thous today Sir William Verson Harcourt, in moving a resolution of sorrow and in-dicutation at the murder of President Car-not, dwelt upon the fact that England was Silways the friend and sometimes the ally of France. He offered the resolution adopted in 1865 in connection with the murder of President Lincoln. It was adopted unautopoisty. CHICAGO, June 26. - The threatened strike to enforce the boycott of Pullman cars was mangurated at 8 o'clock tonight the American Railway union ordered the Himols Central men out. The switchmen were the first to obey and quietly walked out, tieing up the suburban as well as express train service. The 9 o'clock train for St. Louis was allowed the boycott. The strike, it was asserted by an A. R. A detachment of military engineers was summoned and the soldiers charged upon the mob. After a short conflict, the rioters were driven out of the consulate which which was then occupied by the troops and the prefect made an apology to the Italian consul.

Raton, N. M., June 26.—In accordance with instructions issued by the American Railway Union a committee of five stationed themselves at the Santa Fe depot here today and upon the arrival of the east-bound limited express train cut out the Pullman car Gheot, making a switch to do so. The yardmaster was powerless to prevent the car Gheet, making a switch to do so. The yardmaster was powerless to prevent the interference and his switchmen would do nothing. The officers of the division have ordered the train held here until further orders, notwithstanding the fact of its being a mail train. this territory. So far no formal move has been made in the matter.

CHICAGO, June 26 - The executive com nittee meeting of the Western Trunk Line association was held here today, there being a full attendance of the presidents and vice presidents of the different roads. The main question under consideration was a proposed reduction in the mileage charges on special cars. It was then agreed that beginning August 1, the alleage of all classes of freight cars interhanged between railroad companies, luding private cars, but excepting refrigerator cars, should be one-half cent per mile. This is a reduction of about a quar-ter cent per mile. The rates vary at present but the average is about % cent per mile. It was decided to make the rat aniform and fix it at one-half cent per
